FACIALS, PEELS + TREATMENTS

Personalized facial

\$50-\$75 (30min)

\$85-\$110 (60min)

\$110-\$145 (90 min)

Our professional estheticians will start with a thorough consultation and skin analysis. You will work together to determine the best facial treatment for your skin + your desired results.

Gentleman's facial

\$85 - \$110 (45 min)

Using simple and clinically tested products to achieve deep cleansing and purification of your pores, while nourishing and infusing neuropeptides and collagen growth factors into the skin. Finishing the treatment with a relaxing ice globe face and neck massage to tighten and soothe the skin.

Back facial

\$60-\$85 (45 min)

A back facial is a treatment performed on the back that consists of deep cleansing, exfoliation, and extractions. In a back facial, an esthetician will use creams and possibly steam to exfoliate and clean your skin before extracting oil and debris. The treatment ends with a detoxifying mask for hydration.

Microneedling treatment

\$350 (75 min)

Boost your body's natural collagen production while reducing appearance of scars, dark spots, large pores, and improve skin's elasticity. This minimally invasive cosmetic treatment requires little to no downtime and includes a basic facial with each treatment.

*For best results, recommended treatment is once every 4-6 weeks, buy a series and save!

Dermaplaning

\$80-\$105 (60 min)

Dermaplaning is the simple way to rejuvenate your skin by exfoliating away dead skin cells and unwanted "peach fuzz" allowing for deep product penetration into your skin. This treatment will leave your face feeling smoother, exposing younger brighter skin while helping reduce the appearance of fine lines and wrinkles naturally.

*Can be added to any other facial treatments for an additional charge.

Chemical peel

\$120-\$145 (45min)

During this procedure, the proper solutions will be applied to the area being treated, which causes the skin to exfoliate and eventually peel. Once this happens, the new skin underneath is often smoother, appears less wrinkled, and may have less damage. Chemical peels can help treat a variety of things, including: wrinkles and fine lines, sun damage, acne scars, hyper pigmentation, melasma and uneven skin tones.

BioRePeel

\$300 (60 min)

A safe innovative treatment, using a patented 2-phase technology that dissolves bonds between cells and carefully removes the top layer of skin revealing the glowing smooth layer underneath.
